

The coloured states are numbered storting at 300 " makes no sense because the edges have about names, and these represent transitions.

1'11 editlannotate in this boxelectronically

(b) 
$$\overline{A+B} = \overline{A}.\overline{B}$$
  
 $A = A(B+\overline{B})$ 

because I forgot something .000.

(0,0,0) 
$$=$$
  $\int_{0}^{\frac{\pi}{2}} \int_{0}^{\infty} \psi(x,y,t) dxdydt$   
 $(x,y,t) = x + xy - t^{2}$
